Altheim, 07.12.2025

Dear R/C – Pilot !

We are happy to invite you to

**9th international Airliner-Meeting 2026
Fliegergruppe Gingen/Fils e.V.
July 10-12th 2026 Airfield Oppingen-Au**

In 2026 it's finally time again: every two years, the meetings take place again on the wonderfully located glider airfield of the Fliegergruppe Gingen / Fils e.V. At an early stage, we would like to inform you about this year's event and to express our warm invitation. In the centenary calendar for this weekend, wonderful weather conditions are predicted. Invited are all model pilots who own **airliners, transporters or multi-engine aircraft.**

The conditions are optimal. Space in abundance and a clear view in all directions. Ideal conditions, even for large models. The airfield is approved for models up to 25 kg, larger models over 25 kg to 150 kg receive a special permit. **Therefore please register at least 6 weeks before the event!**

The runway (grass runway) will be prepared again before the event, so even smaller models can start easily. Flight operations are possible already on Friday, 10. July starting 13.00. From Friday evening, the catering will be provided by the good Swabian cuisine of the "Oppinger". The arrival can also be done earlier. Camping at the place is possible. A list of recommended hotels, very close to the airfield, is available on the homepage: www.airlinertreffen.com.

The appointment is also ideal for a short break on the Swabian Alb. Accompanying persons can visit the manifold sights in the surroundings of Ulm, the Neuschwanstein Castle is only about 1,5 h away. Exchanging experiences, talking shop with like-minded people, and above all flying according to your mood have priority, no flight program and no compulsion. **Participation without prior registration is not possible.** On Saturday evening there is an entertaining evening program with fireworks.

Also this year, many well-known pilots with extraordinary models have already confirmed their participation. We would be happy to welcome you to the Oppinger airfield! In order to make the organization easier for us, please register as early as possible using the enclosed registration form or register online at www.airlinertreffen.com.

We are looking forward to an extraordinary R/C-Event !
